

Snowflake MCS/EHS Community Photo Tour

The houses are placed on large lots. Seven EI-owned houses can be seen in this picture.

Three of the residents with their modified low-radiation (low-EMF) cars.

2 *Snowflake Community Tour*

The four rental houses for people with MCS/EHS of low income. They were built by the State of Arizona in 2008.

This community member brought a porcelain trailer, which she then added to over time. It now has a roof and a sun space on the south side. There is also a new kitchen building and utility shed.

An investor built three houses, which were then sold to new community members.

4 *Snowflake Community Tour*

The houses are built of healthy materials, such as ceramic tiles that cover both the walls and floor of this bedroom.

A living room and kitchen, built of steel, aluminum, ceramic tiles and clay paint. The furniture is also non-toxic.

There are usually people with MCS/EHS camping during the summer season.

6 *Snowflake Community Tour*

Three community members perform a skit to celebrate victory over a developer.

The community celebrating the completion of a new home. Most houses are custom built.

For more information about Snowflake and other MCS/EHS communities in Arizona, see www.eiwellspring.org/arizonalocal.html.
