Dumit, Joseph. Illnesses you have to fight to get: facts as forces in uncertain, emergent illnesses, *Social Science and Medicine*, 62, 577-590, 2006.

Eis, Dieter et al. The German multicentre study on multiple chemical sensitivity (MCS), *International Journal of Hygiene and Environmental Health*, 2008.

References to Introduction To MCS

Hamilton, Denise. Your perfume is making them sick: overwhelmed by the scents of chemicals in products and in the air, some activists are leading the push for a more fragrance-free environment, *Los Angeles Times*, December 15, 1994.

Heilbrun, Lynne et al. Maternal chemical and drug intolerances: potential risk factors for autism and attention deficit hyperactivity disorder (ADHD), *Journal of American Board of Family Medicine*, 2015. (See also the July 9, 2015 press release from UT San Antonio Health "study finds autism, ADHD run high in children of chemically intolerant Mothers.")

Heo, Yong et al. Factors contributing to the self-reported prevalence of multiple chemical sensitivity in public facility workers and the general population of Korea, *J UOEH*, 2017.

Hu, Howard and Cornelia Baines. Recent insights into 3 underrecognized conditions, *Canadian Family Physician*, 64, June 2018.

Ioannidis, John. Rethink funding, the way we pay for science does not encourage the best results, *Scientific American*, October 2018.

Italian consensus. Italian consensus on multiple chemical sensitivity, Italian workgroup on MCS, 2019.

Joachim, G. and S. Acorn. Stigma of visible and invisible chronic conditions, 

Khoury, Samar et al. A functional substitution of the L-aromatic amino acid decarboxylase enzyme worsens somatic symptoms via a serotonergic pathway, *Annal of Neurology*, June 2019. (Much more readable is the McGill University press release "Serotonin linked to somatic awareness, a condition long thought to be imaginary," June 19, 2019.)

Konnikova, Maria. Betrayal from within (the body against itself), *Scientific American*, September 2021.

Lipson, Juliene. We are the canaries: self-care in multiple chemical sensitivity sufferers, *Qualitative Health Research*, 11, 1, 103-116, January 2001.

Lupkin, Sydney. Women put an average of 168 chemicals on their bodies each day, consumer group says, ABC News, April 27, 2015.

Miller, Claudia et al. Mast cell activation may explain many cases of chemical intolerance, *Environmental Sciences Europe*, 33, 2021.

Molloy, Susan. Personal communication, 2019.

Molot, John. *12,000 canaries can't be wrong*, Toronto: ECW Press, 2014.

Pall, Martin. Electromagnetic fields act via activation of voltage-gated calcium channels to produce beneficial or adverse effects, *Journal of Cellular and Molecular Medicine*, Aug 17, 2013.

Sears, Margaret E. The medical perspective on environmental sensitivities, Canadian Human Rights Commission, 2007. Also available in French as: Le point de vue medical sur l'hypersensibilite environnementale.

van der Kolk, Bessel. The body keeps the score, New York: Penguin, 2014.

Yang, Amy et al. Genetics of caffeine consumption and responses to caffeine, Psychopharmacology (Berl), 211, 245-257, August 2010.

Zavestoski, Stephen et al. Patient activism and the struggle for diagnosis: Gulf War Illnesses and other medically unexplained physical symptoms in the US, Social Science and Medicine, 58, 161-175, 2004.

Ziem, Grace. Multiple chemical sensitivity: treatment and follow up with avoidance and control of chemical exposures, Toxicology and Industrial Health, 8, 73-86, 1992.

Notes

ABC TV note. The ABC television programs were:

- Big fears, little risks (1989)
- Dr. Dean Edell (Dec 28, 1990)
- Allergic to living (March 1, 1991)
- Dr. Dean Edell (May 24, 1994)
- The blame game: are we a country of victims? (Oct 26, 1994)
- Are we scaring ourselves to death? (April 20, 1994)
- Allergic to the world (Jan 3, 1997)
