Sante Fe, NM 87503

Dear Mr. Dibner:

Enclosed is some background information on the issues to be discussed the Townhall meeting scheduled for 24 June 1996. The Environmental Sensitivities Research Institute is a non-profit, scientific, and educational organization dedicated to the open exchange of objective scientific information and data among physicians, scientists, industry, the government, and the general public. Our interest is to add some much needed scientific balance to what is often an emotional issue.

Thank you for faxing me the "Fragrance-Free Policy." I expect to be attending next Monday's meeting and hope to meet you, but understand that you will be very busy with meeting activities. However, I would be pleased to respond to any technical questions you may have, or to refer you to independent experts in the field on Monday and thereafter.

Best Wishes,

Cindy Lynn Richard, CIH  
Manager
